WARMY GEL WARMER - GW100

When patient comfort is your priority

DYAUSMED

technology for better life

WARMY GEL WARMER

Providing Warm and Comfort to your precious Patients

Warmy is a latest generation Gel Warmer designed and developed by R & D Team of DYAUSMED Healthcare. Warmy, a Dual Bottle Gel Warmer is based on intelligent Arduino Micro-controller Technology which helps in achieving perfect temperature of gel bottles ensuring maximum comfort and warmth to your patients. Warmy has bright LCD display for continuous temperature display, has Turbo heating mode for fast heating of the Gel bottles when ever you need them at right temperature in urgency. Warmy has Intelligent Thermal Cutoff Technology which ensures that under no circumstances temperature exceeds the desired limits thereby providing 100% safety and reliability. It's unique surround heating technology ensures that the gel bottles are evenly heated from all sides. Warmy is your best buddy to provide comfort and care to your precious patients.

- Ⓜ Dual gel bottle heating design
- Ⓜ Micro-controller Arduino based temperature management
- Ⓜ High resolution color LCD display
- Ⓜ Continuous temperature display
- Ⓜ Medical grade thermal resistant material
- Ⓜ Turbo mode for fast heating
- Ⓜ Powerful surround heating technology for uniform heating
- Ⓜ Arduino based Intelli Thermal Cutoff for overheating protection
- Ⓜ Extremely low power consumption
- Ⓜ Easy to clean with no sharp edges
- Ⓜ Inbuilt handle for easy transportation
- Ⓜ Easy switch between Centigrade and Fahrenheit
- Ⓜ Wall mounting option
- Ⓜ Anti-skid design of stability

Wall Mount Option

Two Bottle Design

Lid Latch For Easy Lift
